STRAIGHTENER INSTRUCTIONS

Please retain this leaflet for future reference.

READ ALL INSTRUCTIONS BEFORE USING.

IMPORTANT SAFEGUARDS
When using this electrical appliance, especially when children are present, basic safety precautions should always be observed including the following.

Requirements
➤ Read the instruction manual in full to familiarize yourself with the product before the first use.
➤ This appliance can be used by children from aged 8 years and above and persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
➤ Keep the appliance and its cord out of reach of children less than 8 years.
➤ Use this appliance only for its intended purpose.
➤ Do not use with a voltage converter.

Hazards
⚠ Danger! Electric shock due to damage to appliance
STRAIGHTENER INSTRUCTIONS

► Do not operate the appliance with a broken cord or plug, or if the appliance malfunctions, or is dropped or damaged in anyway.
► If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similarly qualified person in order to avoid a hazard.
► Do not let the cord hang over the edge of the work surface or let it touch any hot surfaces.

**WARNING**: Do not use this appliance near bathtubs, showers, basins or other vessels containing water.

**Danger! Electric shock due to penetration of liquid**
► To protect against risk of electrical shock, never immerse the unit or let it come into contact with water or any other liquids. Do not use the unit with wet hands. If the appliance should become wet, damp or fall in water, remove plug from mains socket immediately. Do not put your hands in the water. Do not take into bathroom.
► The use of attachments that are not supplied by the manufacturer may cause fire, electric shock or injury and damage to the appliance.
STRAIGHTENER INSTRUCTIONS

⚠️ Warning! Injuries due to incorrect handling

► Switch off the appliance and unplug from outlet when not in use, before putting on or taking off attachments and also before cleaning the appliance.
► Never use the appliance on artificial hair
► Care should be taken to avoid contact with the skin, the face and neck.

⚠️ Caution! Danger of product damage

► Never use your appliance without paying attention!
► Always unplug the unit when not in use or left unattended.
► Do not wrap the cord around the appliance.
► Do not use outdoors or in damp areas.
► Never carry the unit by its power cord.
► During use the appliance and accessories become hot, keep them away from surfaces that are not resistant to heat, do not leave them near clothes, paper or other combustible objects and never cover them.
► Do not apply hair products directly on the appliance. Do not direct any spray can or water mister to it.
► Allow the appliance to cool before storing away.

NOTE: During the first few minutes of the initial use, you may notice smoke and a slight odour. This is normal and will quickly disappear.
STRAIGHTENER INSTRUCTIONS

OPERATING INSTRUCTIONS
Before plugging in check that the voltage matches that shown on the rating label.

BEFORE USING

1. Make sure that all the packaging materials have been properly removed before use.
2. Remove the excess water from hair with a towel, and comb it to disentangle.
3. Before using the appliance, make sure the hair is slightly damp or dry.

Note: Never use this appliance to dry your hair, but only to straighten it.

OPERATION

1. Connect the appliance to a wall socket and place it on dry surface and resistant to heat.
2. Turn on the appliance by pressing for 1 second the on/off button, until the default reading appear on the LCD display, and wait around 1-2 minutes for the appliance to reach the 150° C.
3. After reach the 150° C the appliance is ready to be used. The temperature can be adjusted between 150 and 230° C. To raise the temperature press the increase button (+) and to decrease it, press the decrease button (-).
4. Note: for the majority of the normal hair, the temperature of 150° C is sufficient for obtaining good results. However, if needed, the operating temperature can be increased gradually up to 230° C.
5. The hair straightening should be made from the root to the ends. Hold a small lock of hair, with approximately 50 mm of width and 5 mm of thickness and place it between the plates. Close the plates and maintaining some tension; gently slide them from the roots to the ends.
6. Note: the plates have very high temperatures during operation. Make sure to keep them away from the scalp and skin to avoid burns.
7. Repeat this procedure all over the hair, allowing it to cool down before combing or brushing.
8. When you finish, switch off the appliance on the the on/off button and disconnect the plug from the wall socket.
STRAIGHTENER INSTRUCTIONS

GUARANTEE

This product is guaranteed against defects in material and workmanship for a period of 1 year from the date of original purchase or receipt as a gift.

Should this product become defective during the guarantee period, return it to the store of purchase together with your proof of purchase for repair or replacement.

Alternatively within the guarantee period you can return the product to Wahl (UK) Ltd who will repair any such defect or elect to replace the product or any part of it, without charge, provided that there is proof of purchase. Should a replacement be offered this will not extend the original guarantee period.

The guarantee becomes invalid in the case of misuse, alteration or repair by unauthorised persons.

This product is designed for domestic use only and use within a professional environment will invalidate the guarantee.

This guarantee in no way affects your rights under statutory law in the United Kingdom.
